a Source units
Same section; original order
S1 Evaluation datasets:
Introduction
S2 (1) Dataset Alpha.
Marked item 1
S3 (2) Dataset Beta.
Marked item 2
S4 Each dataset was preprocessed.
Outside the list group
List cue
Mutual requirements
Source ID + character interval
b Matched packing
S2
Candidate
Independent density
S2
A = {S2}
Dependency closure
S1
S2
S3
A = C(S2) = {S1, S2, S3}
c Verbatim copy
One source unit
S2 (1) Dataset Alpha.
Original slice, not rewritten
Complete list group
S1 Evaluation datasets:
S2 (1) Dataset Alpha.
S3 (2) Dataset Beta.
Source coordinates retained
Same objective, same utilities
Added utility / marginal rendered tokens
Full input T <= B
Same tokenizer and prompt
Added unit
Requires
Candidate S2
Illustrative units; no measured outcomes
d Separate changes to evidence content and order
QASPER: change selected evidence
Retrieved excerpts
Whole annotated paragraphs
LongBench: retain identical chunks
